

Ecological problems of the Earth	54	good
Economic imitation games	46	passed
Economic doctrines	66	excellent
Electrodynamics	360	excellent
Electromagnetic practicum	82	good
Course of specialization: Beams diagnostics in accelerative equipment	23	passed
Course of specialization: Computing techniques	48	excellent
Course of specialization: Nonlinear beams dynamics	42	excellent
Course of specialization: Practice at a research institute	648	excellent
Course of specialization: Theory of linear electronic systems	16	excellent
Course of specialization: Orbit accelerator	102	excellent
Course of specialization: Experimental methods of nuclear physics	61	excellent
Course of specialization: Electrodynamics of UHF	108	good
Course of specialization: Electronic optics and beams physics	72	excellent

Grade point average: 4,59

Dean of the Department of Physics,
professor
A.V.Arzhannikov
